17:15-17:30 Maja Hodžić: **Results of bat fauna survey on the VII International biology camp “Rujište 2017”**

17:30-19:00 **Visit to the Zemaljski muzej, Sarajevo**

Friday, 1.-6. 2018

B) Bats ecology session

09:30-09:45 Aja Zamolo, Primož Presečnik, Hubert Potočnik: **First study of foraging patterns and habitat use of the Greater mouse-eared bat (*Myotis myotis*) in Slovenia**

09:45-10:00 Henry Schofield, Daniela Hamidović, Anita Glover, Boris Krstinić, Damjan Krstinić and Dina Rnjak Kovac, Marija Crnčević: **Radio-tracking reveals the roosting and foraging behaviour of *Plecotus kolombatovici* on Lokrum Island, Dubrovnik**

10:00-10:15 Branka Pejić, Ivana Budinski, Branko Karapandža, Milan Paunović: **More than 60 years of ringing *Miniopterus schreibersii* (Kuhl, 1817) in Serbia: Movements and longevity data**

C) Bats conservation session

10:15-10:30 Vida Zrnčić, Ivana Šimić, Ivana Lojkić, Andjela Ćukušić, Tomislav Bedeković: **What do we know about rabies of Croatian bat fauna - Active rabies surveillance in selected roosts**

10:30-10:45 Hrivňák Milan, Lobbová Denisa, Ceľuch Martin, Bačkor Peter, Hapl Ervíñ, Filo Juraj, Kováč Matúš, Pavlíková Jana, Radim Tomáš: **Conservation of bats in prefab buildings in Slovakia**

10:45-11:15 **Coffee break**

11:15-11:30 Sándor A. Boldogh: **Research and protection of bats in Hungary – an overview**

11:30-11:45 Ivana Dočkal, Šejla Goletić, Aida Bahtijarević, Selma Durgut, Selma Dizdarević: **Istraživanje nivoa svijesti građana o važnosti šišmiša za okoliš**

11:45-12:00 Jasminko Mulaomerović: **Bat research in Bijambare protected area – an overview**
